Dear Professor Sir

I am writing to see if it would be possible to request a brief two-day extension on the **Task-4-Email-Etiquette** assignment due this Friday, October 24th.

I have been working through the curriculum, but due to a sudden bout of the flu over the last few days, I've fallen slightly behind my planned schedule. I want to make sure the work I submit is thorough and reflects what I've learned in the course, rather than rushing a submission while I'm recovering.

If possible, could I submit the completed task by Sunday evening? I've already completed the first three tasks of the repository and have attached my current progress so you can see the work is well underway.

Thank you for considering my request and for your time.

Best regards,

Yash Sharma

Dear Sir,

My name is Yash Sharma and I'm a second-year student at VIT BHOPAL University studying Computer Science. I've been following **TechFlow Solutions** for a while, especially your recent work on the "GreenGrid" UI redesign, and I was wondering if you are currently accepting interns for the upcoming summer.

I have been developing my skills in **React, JavaScript, and Version Control via GitHub**, and I'm really eager to apply what I've learned in a professional setting like TechFlow. I'm a quick learner and a hard worker, and I'd love the chance to contribute to your team while gaining some hands-on industry experience.

I've attached my resume and a link to my GitHub portfolio (github.com/Yash0311-GLP) for you to look over. I'd appreciate any information you could share about the application process or any upcoming openings.

Thank you for your time and consideration.

Sincerely,

Yash Sharma +91 8708760139
